DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over the applicant's admitted prior art (AAPA) of this application in combination with Maex et al. (US publication 2002/015170) and Van Kestersen et al. (US patent 5,952,094).

With respect to claims 1-17, AAPA in combination with Maex et al. and Van Kestersen et al. teach the invention as claimed. **See the rejections of the office actions dated 08/22/05, 01/03/06, 06/01/06, and 10/24/06.**

Further with respect to claims 1 and 17 as presently amended, since AAPA in combination with Maex et al. and Van Kestersen et al. teach the claimed invention, Ge would inherently be expelled from the formed (Co,Ni) disilicide.
